**INTERNATIONAL PRELIMINARY  
EXAMINATION REPORT**

International application No. **PCT/GB 03/03003**

**I. Basis of the report**

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17):*

**Description, Pages**

1-12 as originally filed

**Claims, Numbers**

1-15 as originally filed

**Drawings, Sheets**

1/10-10/10 as originally filed

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).  
☐ the language of publication of the international application (under Rule 48.3(b)).  
☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.  
☐ filed together with the international application in computer readable form.  
☐ furnished subsequently to this Authority in written form.  
☐ furnished subsequently to this Authority in computer readable form.  
☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  
☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:  
☐ the claims, Nos.:  
☐ the drawings, sheets:

**Re Item V**

**Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

Document WO-00/71841 discloses the nearest prior art, is mentioned in the description at page 1 and corresponds to the preamble of independent claim 1 and 15.

Object of the invention is to present a door locking mechanisms for a latch mechanism which allows the latch mechanism to be locked in its latching position from one side of the door so as to prohibit opening of the door by turning of the handle on the opposite side of the door.

The solution is described by means of the features of the characterizing part of independent claims 1 and 15 (locking member is engageable with guide means spaced from the locking position and delimiting an arc of movement of the locking member when the handle is turned from a rest position so as to move the latch bolt from its latching position and actuating means for operating the locking member).

The solution according to independent claims is neither disclosed in the available prior art nor obvious per se.

The subject-matter of claims 1 and 15 seems to satisfy the criterion set forth in Article 33(2), (3) and (4) PCT.

Claims 2 to 14 relate to modifications of the invention of claim 1.

The subject-matter of these claims seems to satisfy the criterion set forth in Rule 6.4 PCT.
